

UNIVERSITY OF LOUISIANA AT LAFAYETTE

FIVE-YEAR STRATEGIC PLAN

FY 2026-2027 through FY 2030-2031

July 1, 2025

**UNIVERSITY OF LOUISIANA AT LAFAYETTE
THE UNIVERSITY OF LOUISIANA SYSTEM**

Strategic Plan FY 2026-2027 through FY 2030-2031

Vision Statement:

Together, as a nationally prominent research University, we shape our community, region and world by embracing our unique culture, leveraging our deeply rooted traditions and fostering our competitive spirit to improve the human condition.

Mission Statement:

The University of Louisiana at Lafayette provides an exceptional educational and professional experience driven by diverse worldviews and enriched by shared cultural traditions. Through public impact research, inspirational teaching and transformative service, we develop citizens, leaders and innovators who create solutions to community and regional challenges, improving the world for future generations.

Our Values:

Collaboration: Understanding and fostering connections with others across disciplines and perspectives

Collegiality: Being cooperative, considerate and respectful while working together to reach common goals

Honesty: Exhibiting sincerity and truthfulness through our actions, words and interactions with others

Integrity: Demonstrating trustworthiness and ethical behavior, and exercising responsible stewardship of the resources with which we are entrusted

Respect: Honoring the dignity of each person and fostering a spirit of inclusiveness

Transparency: Embracing open and continuous communication through consistent sharing of information

Enduring Commitments:

The University's enduring commitments are those with which the institution has longstanding and unwavering engagement and are interwoven with its current strategic priorities. They are the foundational building blocks for an exceptional student experience and are essential to both student and institutional success. Defining these enduring commitments helps reinforce their vital nature and underlines the institutional desire to keep them at the forefront of our work. Over time, these commitments shape the University's identity, establish opportunities and limitations, and set its direction.

Access, Opportunity and Success is striving to achieve inclusive excellence beyond the boundaries of comfort to engage across cultures, discovering, appreciating and leveraging the rich diversity of our campus community.

Innovation is striving to always be forward-thinking, encouraging novel and creative ways to positively impact students and find success in our strategic priorities.

Organizational Culture is the environment that influences the nature of collaboration and respect. It helps move the University toward our vision as we focus on the “people side” of the institution.

Service is fostering mutually beneficial community partnerships to exchange knowledge, collectively solve problems, enhance quality of life, and develop educated and engaged citizens.

Sustainability is fully embracing our environmental, social and economic responsibilities and preparing each student for success as a globally responsible, productive citizen committed to environmental stewardship.

Strategic Priorities:

The Strategic Plan is rooted in the University’s mission and values and creates a five-year roadmap toward the realization of our vision. It includes five strategic priorities that address critical areas requiring resources and significant effort.

Academic Excellence is our responsibility to ensure the University imparts a learning and service mindset and instills in our students a desire to impact the human condition in a positive, meaningful way.

Exceptional Student Experience is our responsibility to meet the needs of contemporary students both inside and outside the classroom.

Intentional Stewardship is our responsibility to cultivate a space in which the human, physical and financial aspects of the University may thrive.

Public Impact Research is providing the academic and scholarly atmosphere for our students, faculty and staff to be ambitious and prolific in scholarship, innovation and creative activity through all disciplines across the University.

Transformational Community Engagement is our responsibility to foster collaboration and mutually beneficial partnerships locally, regionally, nationally and globally to enrich teaching and learning, prepare educated and engaged citizens, strengthen our communities and improve the world for future generations.

Goals and Objectives:

Goal I: To Increase Opportunities for Student Access

Objective I.1: Increase the Fall headcount enrollment by 7.0% from the baseline level of 15,773 in Fall 2024 to 16,878 by Fall 2029.

Links: State Outcome Goals -- Youth Education, Diversified Economic Growth

Children's Budget Link: Not applicable

Human Resource Policies Beneficial to Women and Families Link: Not applicable

Other Links: (TANF, Tobacco Settlement, Workforce Development Commission, or Other: Closely linked to objective in Master Plan for Postsecondary Education

Strategy I.1.1: Recruit better academically prepared students.

Strategy I.1.2: Develop collaborations with two-year schools to increase transfer rates.

Strategy I.1.3: Enter into dual/cross/concurrent enrollment collaborations with community colleges.

Strategy I.1.4: Develop need-based scholarship program to improve access and to encourage attendance.

Strategy I.1.5: Implement or enhance initiatives geared towards improving graduation and retention rates.

Performance Indicators:

Output: Number of students enrolled (full term) at the University of Louisiana at Lafayette

Outcome: Percent change in the number of students enrolled (full term) at the University of Louisiana at Lafayette

Source: Board of Regents Statewide Student Profile System data

Goal II: To Increase Opportunities for Student Success

Objective II.1: Increase the percentage of first-time in college, full-time, degree-seeking students retained to the second Fall at the same institution of initial enrollment by 6.00 percentage points from the Fall 2023 cohort (to Fall 2024) baseline level of 74.0% to 80.0% by Fall 2029 (retention of Fall 2028 cohort).

Strategy I.1.1: Recruit better academically prepared students

Strategy I.1.2: Develop need-based scholarship programs to improve retention, progression and graduation.

Strategy I.1.3: Implement or enhance initiatives geared towards improving retention, progression and graduation rates.

Performance Indicators:

Output: Number of students enrolled at a Four Year University in Louisiana identified in a first-time, full-time, degree-seeking cohort, graduating within 150% of "normal" time of degree completion from any public postsecondary institution in Louisiana.

Outcome: Percentage of students enrolled at a Four Year University in Louisiana identified in a first-time, full-time, degree-seeking cohort, graduating within 150% of "normal" time of degree completion from any public postsecondary institution in Louisiana.

Source: Board of Regents Statewide Gradation Rate

Goal II: To Increase Opportunities for Student Success

Objective II.4: Increase the total number of Baccalaureate Degree completers in a given academic year from the baseline year number of 2,272 in 2023-2024 Academic Year to 2,408 in Academic Year 2028-2029. Students may only be counted once per award level.

Appendix A

Process Documentation

I. A brief statement identifying the principal clients and users of each program and the specific service or benefit derived by such persons or organizations:

The principal beneficiaries of the University's programs are the 17,289 students enrolled in university courses and degree programs. These students come primarily from the Acadiana area which includes the eight parishes of Acadia, Evangeline, Iberia, Lafayette, Saint Landry, Saint Martin, Saint Mary, and Vermilion. Secondary beneficiaries are the citizens of the parishes and the state of Louisiana who benefit from the University's programs, research, facilities, and more than \$755 million per year economic impact. The specific services or benefits derived by the students and citizens will be the opportunities for high-quality postsecondary education and successful careers. The ultimate benefit to the community and prospective employers will be a better educated and trained citizenry.

II. An identification of potential external factors that are beyond the control of the entity and that could significantly affect the achievement of its goals or objectives:

Potential external factors could include: national, state, and local economic trends; and changes in the level of funding support from the Louisiana Legislature. A change in policy at the federal level can have dramatic effects on postsecondary education, including student financial aid, research and experimentation, telecommunications (distance learning), and related programs.

III. The statutory requirement or other authority for the goals of the plan:

Goal 1: To Increase Opportunities for Student Access

Goal 2: To Increase Opportunities for Student Success

Constitution (Article VIII, Sections 5 (D) 4) – To formulate and make timely revision of a master plan. Similar statutory language appears in Title 17 of the Louisiana Revised Statutes

Constitution (Article VIII, Section 5 (D) 1, 2) – To revise or eliminate existing academic programs and to approve or disapprove new program proposals. Similar statutory language appears in Title 17 of the Louisiana Revised Statutes

Constitution (Article VIII, Section 5 (D) 3) – To study the need for changes in mission of existing institutions. Similar statutory language appears in Title 17 of the Louisiana Revised Statutes

IV. A description of any program evaluation used to develop objectives and strategies.

The Board of Regents is required by the state Constitution to develop and make timely revision of a master plan for higher education. The goals and objectives in this five-year strategic plan were derived from the Regents' revised Master Plan as well as from Act 741 of the 2010 Legislative Session (GRAD Act).

STRATEGY ANALYSIS CHECKLIST	
✓ Analysis	<ul style="list-style-type: none">✓ Cost-benefit analysis conducted✓ Financial or performance audit usedX Benchmarking for best management practices usedX Act 160 Reports used✓ Other analysis or evaluation tools used✓ Impact on other strategies considered✓ Stakeholders identified and involved
✓ Authorization	<ul style="list-style-type: none">✓ Authorization existsX Authorization needed
✓ Organization Capacity	<ul style="list-style-type: none">X Needed structural or procedural changes identifiedX Resource needs identified✓ Strategies developed to implement needed changes or address resource needs✓ Responsibility assigned
✓ Time Frame	<ul style="list-style-type: none">✓ Already ongoing✓ New, startup date estimated✓ Lifetime of strategy identified
✓ Fiscal Impact	<ul style="list-style-type: none">✓ Impact on operating budgetX Impact on capital outlay budgetX Means of finance identified✓ Return on investment determined to be favorable

- V. Identification of the primary persons who will benefit from or be significantly affected by each objective within the plan.**
All goals, all objectives: Students, parents, faculty, employers, and the citizenry of the state.
- VI. An explanation of how duplication of effort will be avoided when the operations of more than one program are directed at achieving a single goal, objective, or strategy.**
For the purposes of Act 1465 of 1997, the University of Louisiana at Lafayette is a single program. Duplication of effort of more than one program is therefore not applicable.
- VII. Documentation as to the validity, reliability, and appropriateness of each performance indicator, as well as the method used to verify and validate the performance indicators as relevant measures of each program's performance.**
See Performance Indicator Documentation attached for each performance indicator.
- VIII. A description of how each performance indicator is used in management decision making and other agency processes.**
See Performance Indicator Documentation attached for each performance indicator.

Appendix B

Performance Indicator Documentation

Program: University of Louisiana at Lafayette

Objective I.1: Increase the Fall headcount enrollment by 7.0% from the baseline level of 15,773 in Fall 2024 to 16,878 by Fall 2029.

Indicator 1: Number of students enrolled (full term)

- 1. What is the type of indicator?**
Output, Key
- 2. What is the rationale for the indicator?**
Recognition of the importance of Louisiana having an educated citizenry.
- 3. What is the source of the indicator? How reliable is the source?**
Data will be retrieved from the Board of Regents' Statewide Student Profile System (SSPS). This system has been in existence for approximately 25 years and is considered reliable.
- 4. What is the frequency and timing of collection or reporting?**
The data are gathered twice annually, in the fall and spring. For this indicator, fall data (the national standard) will be used. The indicator will be reported at the end of the third quarter. This will allow time for collection, aggregation, and editing of the data.
- 5. How is the indicator calculated? Is this a standard calculation?**
The Regents' SSPS is a unit record system where each enrolled student, regardless of course load, is counted.
- 6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.**
Headcount enrollment refers to the actual number of students enrolled [as opposed to full-time equivalent enrollment (FTE) which is calculated from the number of student credit hours enrolled divided by a fixed number].

7. Is the indicator an aggregate or disaggregate figure?

This indicator is the aggregate of all enrolled students at the University of Louisiana at Lafayette.

8. Who is responsible for data collection, analysis, and quality?

Each university submits the SSPS data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents' staff builds a master file for SSPS.

9. Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?

No weaknesses. This indicator reflects headcount enrollment and is not the enrollment calculation used for funding or reimbursement calculations.

10. How will the indicator be used in management decision making and other agency processes?

Enrollment drives many management decisions. The size of an institution's enrollment impacts scheduling, hiring, future planning, program demands, facilities management, etc.

Program: University of Louisiana at Lafayette

Objective I.1: Increase the Fall headcount enrollment by 7.0% from the baseline level of 15,773 in Fall 2024 to 16,878 by Fall 2029.

Indicator 2: Percentage change in the number of students enrolled (full term) (compared to baseline)

- 1. What is the type of indicator?**
Outcome, Supporting
- 2. What is the rationale for the indicator?**
Recognition of the importance of Louisiana having an educated citizenry.
- 3. What is the source of the indicator? How reliable is the source?**
Data will be retrieved from the Board of Regents' Statewide Student Profile System (SSPS). This system has been in existence for approximately 25 years and is considered reliable.
- 4. What is the frequency and timing of collection or reporting?**
The data are gathered twice annually, in the fall and spring. For this indicator, fall data (the national standard) will be used.
- 5. How is the indicator calculated? Is this a standard calculation?**
The Regents' SSPS is a unit record system where each enrolled student, regardless of course load, is counted.
- 6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.**
Headcount enrollment refers to the actual number of students enrolled [as opposed to full-time equivalent enrollment (FTE) which is calculated from the number of student credit hours enrolled divided by a fixed number].
- 7. Is the indicator an aggregate or disaggregate figure?**
This indicator is the aggregate of all enrolled students at the University of Louisiana at Lafayette.

8. Who is responsible for data collection, analysis, and quality?

Each university submits the SSPS data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents' staff builds a master file for SSPS.

9. Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?

No weaknesses. This indicator reflects headcount enrollment and is not the enrollment calculation used for funding or reimbursement calculations.

10. How will the indicator be used in management decision making and other agency processes?

Enrollment drives many management decisions. The size of an institution's enrollment impacts scheduling, hiring, future planning, program demands, facilities management, etc.

Program: University of Louisiana at Lafayette

Objective II.1: Increase the percentage of first-time in college, full-time, degree-seeking students retained to the second Fall at the same institution of initial enrollment by 6.00 percentage points from the Fall 2023 cohort (to Fall 2024) baseline level of 74.0% to 80.0% by Fall 2029 (retention of Fall 2028 cohort).

Indicator 1: Percentage of first-time in college, full-time, degree-seeking students retained to the second Fall at the same institution of initial enrollment

1. What is the type of indicator?

Output, Key

2. What is the rationale for the indicator?

Retention rates in System universities have improved in recent years. While System universities have been making strides in this area, more improvement is needed. It is important for the further development of the state's economy that a higher percentage of students who enroll in a University of Louisiana System university be retained and eventually earn a degree.

3. What is the source of the indicator? How reliable is the source?

Data will be retrieved from the Board of Regents' Statewide Student Profile System (SSPS). This system has been in existence for approximately 25 years and is considered reliable.

4. What is the frequency and timing of collection or reporting?

The data are gathered twice annually, in the fall and spring. For this indicator, fall data (the national standard) will be used.

5. How is the indicator calculated? Is this a standard calculation?

The indicator will be calculated by matching the records of incoming full-time first-time freshmen enrolled in a fall semester to the records of the following (second) fall semester. This is the national standard for the calculation of an institutional retention rate.

6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.

The measure only applies to a group of full-time, first-time freshmen who enter an institution in the Fall semester of a particular academic year. They are tracked over time, to the next Fall semester.

- 7. Is the indicator an aggregate or disaggregate figure?**
This indicator is the aggregate of all students in a full-time first-time freshmen cohort who remain enrolled in the second fall semester.
- 8. Who is responsible for data collection, analysis, and quality?**
Each university submits the SSPS data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents' staff builds a master file for SSPS.
- 9. Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**
No weaknesses.
- 10. How will the indicator be used in management decision making and other agency processes?**
Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.

Program: University of Louisiana at Lafayette

Objective II.1: Increase the percentage of first-time in college, full-time, degree-seeking students retained to the second Fall at the same institution of initial enrollment by 6.00 percentage points from the Fall 2023 cohort (to Fall 2024) baseline level of 74.0% to 80.0% by Fall 2029 (retention of Fall 2028 cohort).

Indicator 2: Percentage point change in the percentage of first-time in college, full-time, degree-seeking students retained to the second Fall at the same institution of initial enrollment. (from baseline)

1. What is the type of indicator?

Outcome, Supporting

2. What is the rationale for the indicator?

Retention rates in System universities have improved in recent years. While System universities have been making strides in this area, more improvement is needed. It is important for the further development of the state's economy that a higher percentage of students who enroll in a University of Louisiana System university be retained and eventually earn a degree.

3. What is the source of the indicator? How reliable is the source?

Data will be retrieved from the Board of Regents' Statewide Student Profile System (SSPS). This system has been in existence for approximately 25 years and is considered reliable.

4. What is the frequency and timing of collection or reporting?

The data are gathered twice annually, in the fall and spring. For this indicator, fall data (the national standard) will be used.

5. How is the indicator calculated? Is this a standard calculation?

The indicator will be calculated by matching the records of incoming full-time first-time freshmen enrolled in a fall semester to the records of the following (second) fall semester. This is the national standard for the calculation of an institutional retention rate. The percentage of students retained will be compared to the baseline.

6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.

The measure only applies to a group of full-time, first-time freshmen who enter an institution in the Fall semester of a particular academic year. They are tracked over time, to the next Fall semester.

7. **Is the indicator an aggregate or disaggregate figure?**
This indicator is the aggregate of all students in a full-time first-time freshmen cohort who remain enrolled in the second fall semester. That figure is subtracted from the baseline to get a percentage change.
8. **Who is responsible for data collection, analysis, and quality?**
Each university submits the SSPS data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents' staff builds a master file for SSPS.
9. **Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**
No weaknesses.
10. **How will the indicator be used in management decision making and other agency processes?**
Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.

Program: University of Louisiana at Lafayette

Objective II.2: Increase the percentage of first-time in college, full-time, degree-seeking students retained to the third Fall at the same institution of initial enrollment by 4.9 percentage points from the Fall 2022 cohort (to Fall 2024) baseline level of 63.1% to 68.0% by Fall 2029 (retention of Fall 2027 cohort).

Indicator 1: Percentage of first-time in college, full-time, degree-seeking students retained to the third Fall at the same institution of initial enrollment

1. What is the type of indicator?

Output, Key

2. What is the rationale for the indicator?

Retention rates in System universities have improved in recent years. While System universities have been making strides in this area, more improvement is needed. It is important for the further development of the state's economy that a higher percentage of students who enroll in a University of Louisiana System university be retained and eventually earn a degree.

3. What is the source of the indicator? How reliable is the source?

Data will be retrieved from the Board of Regents' Statewide Student Profile System (SSPS). This system has been in existence for approximately 25 years and is considered reliable.

4. What is the frequency and timing of collection or reporting?

The data are gathered twice annually, in the fall and spring. For this indicator, fall data (the national standard) will be used.

5. How is the indicator calculated? Is this a standard calculation?

The indicator will be calculated by matching the records of incoming full-time first-time freshmen enrolled in a fall semester to the records of the two successive fall semesters. This is the national standard for the calculation of an institutional graduation rate.

6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.

The measure only applies to a group of full-time, first-time freshmen who enter an institution in the Fall semester of a particular academic year. They are tracked over time, to the third Fall semester.

7. Is the indicator an aggregate or disaggregate figure?

This indicator is the aggregate of all students in a full-time first-time freshmen cohort who remain enrolled in the third fall semester.

8. Who is responsible for data collection, analysis, and quality?

Each university submits the SSPS data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents' staff builds a master file for SSPS.

9. Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?

No weaknesses.

10. How will the indicator be used in management decision making and other agency processes?

Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.

Program: University of Louisiana at Lafayette

Objective II.2: Increase the percentage of first-time in college, full-time, degree-seeking students retained to the third Fall at the same institution of initial enrollment by 4.9 percentage points from the Fall 2022 cohort (to Fall 2024) baseline level of 63.1% to 68.0% by Fall 2029 (retention of Fall 2027 cohort).

Indicator 2: Percentage point change in the percentage of first-time in college, full-time, degree-seeking students retained to the third Fall at the same institution of initial enrollment. (from baseline)

1. What is the type of indicator?

Outcome, Supporting

2. What is the rationale for the indicator?

Retention rates in System universities have improved in recent years. While System universities have been making strides in this area, more improvement is needed. It is important for the further development of the state's economy that a higher percentage of students who enroll in a University of Louisiana System university be retained and eventually earn a degree.

3. What is the source of the indicator? How reliable is the source?

Data will be retrieved from the Board of Regents' Statewide Student Profile System (SSPS). This system has been in existence for approximately 25 years and is considered reliable.

4. What is the frequency and timing of collection or reporting?

The data are gathered twice annually, in the fall and spring. For this indicator, fall data (the national standard) will be used.

5. How is the indicator calculated? Is this a standard calculation?

The indicator will be calculated by matching the records of incoming full-time first-time freshmen enrolled in a fall semester to the records of the two successive fall semesters. This is the national standard for the calculation of an institutional graduation rate. The rate of freshmen retained to the third Fall will be subtracted from baseline to get the percentage point change.

6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.

The measure only applies to a group of full-time, first-time freshmen who enter an institution in the Fall semester of a particular academic year. They are tracked over time, to the third Fall semester.

7. Is the indicator an aggregate or disaggregate figure?

This indicator is the aggregate of all students in a full-time first-time freshmen cohort who remain enrolled in the third fall semester.

8. Who is responsible for data collection, analysis, and quality?

Each university submits the SSPS data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents' staff builds a master file for SSPS.

9. Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?

No weaknesses.

10. How will the indicator be used in management decision making and other agency processes?

Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.

Program: University of Louisiana at Lafayette

Objective II.3: Increase the institutional statewide graduation rate (defined as a student completing an award within 150% of “normal time” at any public post-secondary institution within the state) from the baseline rate (Fall 2017 cohort for all institutions) of 57.3% to 63.7% by Academic Year 2028-2029 (Fall 2022 cohort).

Indicator 1: Number of students enrolled at a Four Year University in Louisiana identified in a first-time, full-time, degree-seeking cohort, graduating within 150% of "normal" time of degree completion from any public postsecondary institution in Louisiana.

1. What is the type of indicator?

Output, Support

2. What is the rationale for the indicator?

Graduation rates in System universities have improved in recent years. While System universities have been making strides in this area, more improvement is needed. It is important for the further development of the state’s economy that a higher percentage of students who enroll in a University of Louisiana System university earn a degree.

3. What is the source of the indicator? How reliable is the source?

Data will be retrieved from the Board of Regents’ Statewide Graduation Rate. This system has been in existence for approximately 25 years and is considered reliable.

4. What is the frequency and timing of collection or reporting?

The data are gathered annually by the Board of Regents.

5. How is the indicator calculated? Is this a standard calculation?

The indicator is the number of students within the cohort who graduate within 150% of normal time, six years for baccalaureate degree students. This indicator is the numerator for the calculation of an institutional graduation rate as per the national standard calculation.

6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.

This measure only applies to a group of full-time, first time freshmen who enter an institution in the Fall semester of a particular academic year.

7. Is the indicator an aggregate or disaggregate figure?

This indicator is the aggregate of all students in the cohort who graduate within 150% of normal time, six years for baccalaureate degree students.

8. Who is responsible for data collection, analysis, and quality?

Each university submits the data electronically to the Board of Regents. The Board of regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents' staff builds a master file.

9. Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?

The indicator is a limited measure of an institution's ability to graduate students. The number of freshmen in a cohort is not the same as the number of freshmen for a given academic semester. The cohort does not include students who are part-time, nor does it include students who enter in the Spring semester. It does not include transfer freshmen. The number of graduates in a cohort is not the same as the number of completers for a given academic year. Tracking of students ends after 150% of normal time, six years for baccalaureate degree students and three years for associate degree students; thus students who graduate after that period are not counted in the graduation rate. Students who enter as transfer students and graduate are not counted in the rate. Thus the resulting graduation rate only reflects a portion of the students who enter and graduate.

10. How will the indicator be used in management decision making and other agency processes?

Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.

Program: University of Louisiana at Lafayette

Objective II.3: Increase the institutional statewide graduation rate (defined as a student completing an award within 150% of “normal time” at any public post-secondary institution within the state) from the baseline rate (Fall 2017 cohort for all institutions) of 57.3% to 63.7% by Academic Year 2028-2029 (Fall 2022 cohort).

Indicator 2: Number of students enrolled at a Four Year University in Louisiana identified in a first-time, full-time, degree-seeking cohort, graduating within 150% of "normal" time of degree completion from any public postsecondary institution in Louisiana.

1. What is the type of indicator?

Outcome, Key

2. What is the rationale for the indicator?

Graduation rates in System universities have improved in recent years. While System universities have been making strides in this area, more improvement is needed. It is important for the further development of the state’s economy that a higher percentage of students who enroll in a University of Louisiana System university earn a degree.

3. What is the source of the indicator? How reliable is the source?

Data will be retrieved from the Board of Regents’ Statewide Graduation Rate. This system has been in existence for approximately 25 years and is considered reliable.

4. What is the frequency and timing of collection or reporting?

The data are gathered annually by the Board of Regents.

5. How is the indicator calculated? Is this a standard calculation?

The indicator is the number of students within the cohort who graduate within 150% of normal time, six years for baccalaureate degree students. This indicator is the numerator for the calculation of an institutional graduation rate as per the national standard calculation.

6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.

This measure only applies to a group of full-time, first time freshmen who enter an institution in the Fall semester of a particular academic year

7. **Is the indicator an aggregate or disaggregate figure?**
This indicator is the aggregate of all students in the cohort who graduate within 150% of normal time, six years for baccalaureate degree students, divided by the total number of students in the cohort.
8. **Who is responsible for data collection, analysis, and quality?**
Each university submits the data electronically to the Board of Regents. The Board of regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents' staff builds a master file.
9. **Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**
The indicator is a limited measure of an institution's ability to graduate students. The number of freshmen in a cohort is not the same as the number of freshmen for a given academic semester. The cohort does not include students who are part-time, nor does it include students who enter in the Spring semester. It does not include transfer freshmen. The number of graduates in a cohort is not the same as the number of completers for a given academic year. Tracking of students ends after 150% of normal time, six years for baccalaureate degree students and three years for associate degree students; thus students who graduate after that period are not counted in the graduation rate. Students who enter as transfer students and graduate are not counted in the rate. Thus the resulting graduation rate only reflects a portion of the students who enter and graduate.
10. **How will the indicator be used in management decision making and other agency processes?**
Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.

Program: University of Louisiana at Lafayette

Objective II.4: Increase the total number of Baccalaureate Degree completers in a given academic year from the baseline year number of 2,272 in 2023-2024 Academic Year to 2,408 in Academic Year 2028-2029. Students may only be counted once per award level.

Indicator 1: Number of completers at baccalaureate degree level

1. What is the type of indicator?

Output, Key

2. What is the rationale for the indicator?

System universities have an obligation to produce a better-educated citizenry. Persons with university undergraduate, graduate, and professional degrees are more likely to be productive citizens who earn considerably more income over their lifetimes than high school graduates.

3. What is the source of the indicator? How reliable is the source?

Data will be retrieved from the Board of Regents data reporting system. The data system for collecting institutional data on completers has been in existence for almost three decades and is considered reliable.

4. What is the frequency and timing of collection or reporting?

The needed data are gathered several times per year by the Board of Regents. The time needed for collection, aggregation, and editing of the data results in a lag before reliable reporting can be accomplished. The baseline is AY 2023-2024.

5. How is the indicator calculated? Is this a standard calculation?

The indicator is the sum of all baccalaureate completers and post-baccalaureate certificates at an institution within a given academic year.

6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.

Completers is another term for graduates. It will include all students who earn Board of Regents-recognized baccalaureate awards and post-baccalaureate certificates.

7. Is the indicator an aggregate or disaggregate figure?

This indicator is the aggregate of all students who earn Board of Regents-recognized baccalaureate awards and post-baccalaureate certificates.

8. Who is responsible for data collection, analysis, and quality?

Each university submits the completers data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents' staff builds a master file.

9. Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?

There are no limitations or weaknesses.

10. How will the indicator be used in management decision making and other agency processes?

Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.

Program: University of Louisiana at Lafayette

Objective II.5: Increase the total number of Graduate Degree completers in a given academic year from the baseline year number of 837 in 2023-2024 Academic Year to 962 in Academic Year 2028-2029. Students may only be counted once per award level.

Indicator 1: Number of completers at graduate degree level

1. What is the type of indicator?

Output, Key

2. What is the rationale for the indicator?

System universities have an obligation to produce a better-educated citizenry. Persons with university undergraduate, graduate, and professional degrees are more likely to be productive citizens who earn considerably more income over their lifetimes than high school graduates.

3. What is the source of the indicator? How reliable is the source?

Data will be retrieved from the Board of Regents data reporting system. The data system for collecting institutional data on completers has been in existence for almost three decades and is considered reliable.

4. What is the frequency and timing of collection or reporting?

The needed data are gathered several times per year by the Board of Regents. The time needed for collection, aggregation, and editing of the data results in a lag before reliable reporting can be accomplished. The baseline is AY 2023-2024.

5. How is the indicator calculated? Is this a standard calculation?

The indicator is the sum of all graduate degree completers, post-master's certificates, and graduate certificates at an institution within a given academic year.

6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.

Completers is another term for graduates. It will include all students who earn Board of Regents-recognized graduate awards, graduate certificates, and post-master's certificates.

7. Is the indicator an aggregate or disaggregate figure?

This indicator is the aggregate of all students who earn Board of Regents-recognized graduate awards, graduate certificates, and post-master's certificates within an academic year.

8. Who is responsible for data collection, analysis, and quality?

Each university submits the completers data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents' staff builds a master file.

9. Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?

There are no limitations or weaknesses.

10. How will the indicator be used in management decision making and other agency processes?

Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.

Program: University of Louisiana at Lafayette

Objective II.6: Increase the total number of Undergraduate (adult 25+ years) completers in a given academic year from the baseline year number of 653 in Academic Year 2023-2024 to 688 in Academic Year 2028-2029.

Indicator 1: Number of undergraduate completers (25+ years)

1. What is the type of indicator?

Output, Key

2. What is the rationale for the indicator?

System universities have an obligation to produce a better-educated citizenry. Persons with university undergraduate, graduate, and professional degrees are more likely to be productive citizens who earn considerably more income over their lifetimes than high school graduates.

3. What is the source of the indicator? How reliable is the source?

Data will be retrieved from the Board of Regents data reporting system. The data system for collecting institutional data on completers has been in existence for almost three decades and is considered reliable.

4. What is the frequency and timing of collection or reporting?

The needed data are gathered several times per year by the Board of Regents. The time needed for collection, aggregation, and editing of the data results in a lag before reliable reporting can be accomplished. The baseline is AY 2023-2024.

5. How is the indicator calculated? Is this a standard calculation?

The indicator is the sum of baccalaureate completers and post-baccalaureate certificates age 25+ years at an institution within a given academic year.

6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.

Completers is another term for graduates. It will include all students who earn Board of Regents-recognized baccalaureate awards and post-baccalaureate certificates.

- 7. Is the indicator an aggregate or disaggregate figure?**
This indicator is the aggregate of students age 25+ years who earn Board of Regents-recognized baccalaureate degrees and post-baccalaureate certificates within an academic year.
- 8. Who is responsible for data collection, analysis, and quality?**
Each university submits the completers data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents' staff builds a master file.
- 9. Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**
There are no limitations or weaknesses.
- 10. How will the indicator be used in management decision making and other agency processes?**
Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.

Program: University of Louisiana at Lafayette

Objective II.7: Increase the unduplicated number of underrepresented minorities (all races other than white, Asian, non-resident, and unknow/not reported) completers in a given academic year from the baseline year number of 888 in 2023-2024 Academic Year to 978 in Academic Year 2028-2029.

Indicator 1: Number of underrepresented minority completers

1. What is the type of indicator?

Output, Key

2. What is the rationale for the indicator?

System universities have an obligation to produce a better-educated citizenry. Persons with university undergraduate, graduate, and professional degrees are more likely to be productive citizens who earn considerably more income over their lifetimes than high school graduates.

3. What is the source of the indicator? How reliable is the source?

Data will be retrieved from the Board of Regents data reporting system. The data system for collecting institutional data on completers has been in existence for almost three decades and is considered reliable.

4. What is the frequency and timing of collection or reporting?

The needed data are gathered several times per year by the Board of Regents. The time needed for collection, aggregation, and editing of the data results in a lag before reliable reporting can be accomplished. The baseline is AY 2023-2024.

5. How is the indicator calculated? Is this a standard calculation?

The indicator is the sum of all underrepresented minority completers at an institution within a given academic year.

6. Does the indicator contain jargon, acronyms, or unclear terms? If so, clarify or define them.

Completers is another term for graduates. It will include all students who earn Board of Regents-recognized baccalaureate awards, post-baccalaureate certificates, graduate awards, graduate certificates, and post-master's certificates.

- 7. Is the indicator an aggregate or disaggregate figure?**
This indicator is the aggregate of all students who earn Board of Regents-recognized baccalaureate awards, post-baccalaureate certificates, graduate awards, graduate certificates, and post-master's certificates within an academic year.
- 8. Who is responsible for data collection, analysis, and quality?**
Each university submits the completers data electronically to the Board of Regents. The Board of Regents performs numerous edits and works with the campuses/system to correct errors. When all campus submissions are complete, the Regents' staff builds a master file.
- 9. Does the indicator have limitations or weaknesses? If so, explain. Is the indicator a proxy or surrogate? Does the source of the data have a bias or agenda?**
There are no limitations or weaknesses.
- 10. How will the indicator be used in management decision making and other agency processes?**
Ensuring student success drives many management decisions including recruitment, admissions, academic programming, academic support, facilities, and finance.
